FOREWARD

Plant Iris in sunny, well-drained locations.

Plant with rhizome just below the surface of the soil, making a hole sufficiently large to spread out the roots. Pack the soil around them, water and do not let them dry out until new growth has started. Shade with one shingle for one week.

TERMS—Cash with order. Postage paid on orders over \$3.00. Orders for less add 25 cents to cover postage. Shipping time May 15 to September 1.

I guarantee to ship healthy plants but do not assume responsibility for their cultural success after they leave my hands.
